```
<meta property="og:locale" content="en" />
<meta property="og:url" content="https://start-evict-70283070.figma.site/" /
<meta property="og:type" content="website" />
<meta property="og:title" content="Abere Animated" />
<meta property="og:description" content="Delivers a visually engaging websit
```

Open Graph tags missing

The following Open Graph tags are missing from this webpage:

```
<meta property="og:image" content="your value" />
<meta property="og:logo" content="your value" />
```

Why should I fix Open Graph issues?

Open Graph tags can help improve your SEO by ensuring your webpage appears correctly when shared on social media and as a result, increase traffic and its potential to earn backlinks.

How does Orca Scan use Open Graph tags?

We use Open Graph tags from product pages to deliver dynamic landing pages when a consumer scans a [GS1 Digital Link QR code](#) on retail packaging, you can give this a try using our free [GS1 Digital Link preview tool](#).

Need help upgrading to GS1 Digital Link QR codes?
